

Enna Jettick Display Car Visits Braddock; Stops At The Famous

The Enna Jettick Aerocar pictured above visited the city yesterday and commanded the attention of pedestrians on Braddock avenue. It was parked for about three hours in front of The Famous, local Enna-Jettick distributors for this district.

The Aerocar is a modern showroom on wheels, with large reception room in which are displayed the latest styles in Enna Jettick Shoes. It is capable of taking the road at automobile speed and of bringing the Enna Jettick salesman to the door of his dealer in a luxuriously equipped sample room.

Built by Glenn Curtiss, its lines are those of an airplane body, and it is mounted to ride with the ut-

most smoothness. The sample room is equipped with radio, telephone, barometer and ship's clock. At the rear is a large room for carrying the hundreds of samples.

The Enna Jettick Aerocar which visited Braddock yesterday is one of several which are touring the country, carrying salesmen with complete lines of samples to the thousands of Enna Jettick dealers.

Two can live cheaper than one and also feel cheaper if they're married.

Strange one can't sleep late on mornings he doesn't have to get up early.
