

# UPMC-WorkLink Community Health Free Shuttle Service

As part of UPMC's ongoing commitment to provide the residents of the greater Braddock community with access to quality health care, we are introducing the UPMC-WorkLink Community Health Free Shuttle Service.

The three-month pilot program begins Feb. 1.

The free shuttle service, a partnership of UPMC, Heritage Community Initiatives, and its WorkLink Community Van Service, will offer round trips by van from Braddock to UPMC physician offices in Forest Hills and the new UPMC McKeesport Outpatient Center in Forest Hills. After the pilot concludes on April 30, we will review the community's use of the shuttle to determine whether the service will be continued.

The shuttle is for UPMC patients and staff only. In addition to our many physician offices in Forest Hills, the UPMC McKeesport Outpatient Center in Forest Hills offers a wide range of health care services, including imaging and laboratory services.
